weeds this summer. We
have effective and
affordable solutions!**

MAKING POND & LAKE WEEDS DISAPPEAR SINCE 1977

We're the aquatic plant control experts!

Dear Valued Customer,

We are pleased to offer a variety of effective products to control your aquatic weeds and algae. Choosing Lake Restoration means choosing a company with more than 45 years of experience. With experience comes knowledge, and we combine this with up-to-date technology and techniques to ensure the best quality products and services. From backyard ponds to lakeshores to entire lakes, we will help you rid the unsightly weeds so you can enjoy your water to the fullest degree.

Our Lake Restoration products include herbicides, algaecides, and mechanical products to control your weeds and algae. [Dibrox®](#) herbicide and [Mizzen®](#) algaecide knock out weeds and algae; [Sparklear®](#) nutrient reducer and our variety of [dyes](#) will keep your water looking its best. Combine these four products and save big on a comprehensive pond treatment package. Also be sure to check out our [Cape Furl®](#) algaecide; it is fish-safe and easy to use – sprinkle it over algae and watch it get to work.

Our aquatic plant management experts carry a depth of knowledge to help you select the best products for your specific situation. From weed identification to product recommendations and tips, our experts will guide you to beautiful water. Call or email us to get started on your treatment plan so you can make sweet memories on a gorgeous pond or lakeshore all season long!

Sincerely,
Your Lake Restoration Sales Team

LakeRestoration.com

Work with our aquatic experts to customize products that are timed and measured to give your pond or dock and swim area what it needs, when it needs it. We guarantee our Lake Restoration products will control the target plant or algae when label guidelines regarding application rates and timing are followed. Keep your water beautiful, clear, and healthy this summer!

POND PRODUCTS

Our [pond products](#) are designed to give your pond the healthy and beautiful look it was intended to have. We offer easy-to-use herbicides, algaecides, and nutrient reducers to fit the needs of your pond.

We recommend using these products to get you on your way to a beautiful, clear, and healthy pond:

- [Dibrox®](#) Herbicide
- [Mizzen®](#) Algaecide
- [SparkKlear®](#) Nutrient Reducer
- [Lake Restoration®](#) Deep Blue Pond Dye

All of our pond products are applied with ease using the **TORMADA®** product application boat. Watch our video online at [LakeRestoration.com](#)

SHATTER POND EXPECTATIONS!

We offer pond solutions that will help restore the natural beauty of your pond, eliminate unpleasant odors caused by algae, and increase the recreational use. Visit our website to view our complete collection of pond products.

Dibrox® Herbicide

- Control floating weeds like duckweed
- Eliminate submerged weeds like milfoil and hydrilla
- Quickly absorbed by weeds
- Fun to apply when you use the TORMADA® Product Application Boat
- Available in 8 oz., pint, quart, 1/2 gallon, and gallon

Mizzen® Algaecide

- Easily controls filamentous algae
- Effectively manages planktonic algae
- User-friendly, concentrated formula
- Chelated copper based algaecide
- Available in pint, quart, 1/2 gallon, and gallon

SparKlear® Liquid

- Eliminate organic material at the bottom of your pond
- Reduce nutrients in your pond
- Restore overall health
- Contains bacteria, enzymes and trace minerals
- Available in pint, quart, 1/2 gallon, and gallon

Lake Restoration®

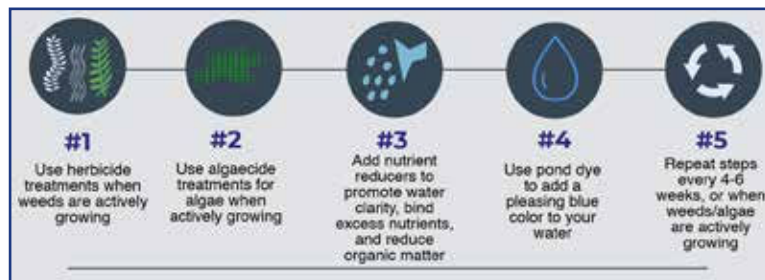

Deep Blue Pond Dye

- Pleasing blue color for added beauty
- Easy to use, concentrated
- Immediate results
- One quart colors an acre

Save when you buy all 4 recommended products!

POND CARE MADE EASY

We recommend that you treat your pond multiple times per season to achieve optimal pond health. The maintenance steps that we recommend will keep your pond looking great all season long!

POND HERBICIDES

Dibrox® Herbicide

Dibrox® controls a wide range of floating and submerged weeds in ponds and around docks.

- Controls submerged weeds like milfoil, hydrilla, and curlyleaf pondweed
- Easily controls duckweed and submerged weeds in ponds
- Quickly absorbed by plants
- Great for treating small areas of larger water bodies

Dibrox® is highly concentrated and contains the same active ingredient as Diquat and Reward. One quart covers 5,000 to 10,000 square feet, depending on weed species.

8 ounce	treats 1,500 - 2,500 sq ft	\$29.00
1 pint	treats 3,000 - 5,000 sq ft	\$44.00
1 quart	treats 6,000 - 10,000 sq ft	\$54.00
1/2 gallon	treats 12,000 - 20,000 sq ft	\$92.00
1 gallon	treats 20,000 - 40,000 sq ft	\$142.00

A Lake Restoration, Inc. product.

Spriftflo® Herbicide

Spriftflo®, a fluridone herbicide, controls duckweed (floating plants) and nearly all submerged weeds in ponds.

- Stays suspended in the water for longer control
- Allow 30-45 days for complete results
- Concentrated formula
- Active Ingredient 41.7% Fluridone (Same active ingredient found in Sonar AS and Avast! SC Aquatic Herbicide
- Spreads through entire body of water
- No temperature requirements

To also control algae in your pond, we recommend adding **Mizzen®** Algaecide to your order.

**Great
Fluridone
Prices**

A Lake Restoration, Inc. Product.

WATERMEAL PRODUCTS

Watermeal is a challenge to control and can easily double in days! [Flumigard](#) and [Semera](#) herbicide control invasive floating weeds, as well as a variety of algae and submerged weeds. Combine this granular herbicide with our [Lake Restoration Pond Products](#) and say good-bye to your watermeal.

If your pond has watermeal and algae, we recommend using the following products to get you on your way to a beautiful, clear and healthy pond:

- [Semera](#)® Herbicide (mixed with surfactant)
- [Mizzen](#)® Algaecide
- [SparKlear](#)® Nutrient Reducer
- [Sapphire Bay](#)® Blue Pond Dye

The best products for controlling watermeal. Buy all 5 recommended products and SAVE!

Flumigard and Semera

The best herbicides to combat watermeal are [Flumigard](#) or [Semera](#) Herbicide.

- Control floating weeds like watermeal & duckweed
- Results seen in just 7-14 days; as little as 3 days on watermeal
- Available in liquid or granular

1/2 gallon Flumigard	liquid; treats up to 2.5 acres	\$239.00
1 gallon Flumigard	liquid; treats up to 5 acres	\$449.00
1 pound Semera	granular; treats up to 1 acre	\$115.00
5 pounds Flumigard	granular; treats up to 5 acres	\$349.00

ALGAECIDES

Mizzen® Algaecide

Keep your pond's algae and scum levels under control so you can enjoy your pond at its maximum beauty.

Our liquid, chelated copper based algaecide, **Mizzen®**:

- Easily controls filamentous algae
- Effectively manages planktonic algae
- Concentrated formula is user-friendly

Regrowth can occur within 10-14 days!
Treat recurring algae growth all summer-long with Mizzen®.

Mizzen® may be used in fresh water lakes, potable water reservoirs, ponds, water gardens, fish hatcheries, irrigation ditches, and other slow-moving water bodies. Also for use in irrigation systems, fountains, water features, and other moving water.

A Lake Restoration, Inc. product.

CATTAIL & WATER LILY CONTROL

We recommend using [Imox](#) and a [surfactant](#) to effectively control and kill cattails, water lilies, grass, weeds, poison ivy, and woody brush in and around ponds and lakes.

Imox is a systemic herbicide that will kill both the plant and the root. It is EPA approved.

Use a surfactant along with Imox as an adjuvant to help the herbicide spread across the leaf, break down the waxy cuticle, and penetrate into the plant.

- Eliminate unwanted grasses and weeds
- Control cattails, water lilies, and other emergent plants
- Excellent for beach areas above the water line
- Mixes with water for easy application
- Kills the plants and the roots

Kill cattails and water lilies!

Imox	1 quart	covers 22,000 sq ft = 1/2 acre	\$105.00
Surfactant	1 quart	covers 10,000 sq ft = 1/4 acre	\$21.00

MUCK ELIMINATION

MuckMaid®

Devour the muck! Get back to enjoying your dock and swim area when you use our [MuckMaid®](#) pellets.

- Bacteria and enzymes devour the build up of organic material
- Improve your recreational area
- Apply every 2-4 weeks

1 pound	covers up to 2,200 sq ft with one application	\$30.00
5 pounds	covers up to 11,000 sq ft	\$90.00
10 pounds	covers up to 22,000 sq ft	\$145.00
20 pounds	two 10 pound bags \$107.50 each	\$215.00
30 pounds	three 10 pound bags \$91.00 each	\$273.00
40 pounds	four 10 pound bags \$81.25 each	\$325.00

A Lake Restoration, Inc. product.

Aqua Stormfuro®

Eliminate muck and improve your water quality while safely removing pond/lake sediment with the Aqua Stormfuro®.

Our aquatic blaster pushes debris and weeds out of the area with a blast of water under the surface. The Aqua Stormfuro® is the only product on the market that has a cage on both the inflow and outflow ends of the motor. This is for added safety and protection from the propeller blade.

- Keep your waterfront clear of algae and unwanted debris
- Eliminate decaying muck and silt
- Stainless steel motor and parts
- Works in minimum of 1' of water
- Blast away decaying leaves and aquatic plants

Available with dock
or post mount.

1/2 HP Aqua Stormfuro	Pushes debris a minimum of 50'	\$1095.00

Beach

DOCK & SWIM AREA PRODUCTS

Don't let submerged weeds and algae take over your summer! Our dock area products effectively control submerged weeds and algae. They will also improve recreation and swim areas so you can get the most out of your lakefront.

Our dock products will help you control:

- Submerged weeds
- Algae around docks and swimming areas
- Muck and sludge

We recommend using the following products for your dock area:

- **Dibrox®** Herbicide
- **Mizzen®** Algaecide
- **MuckMaid®**

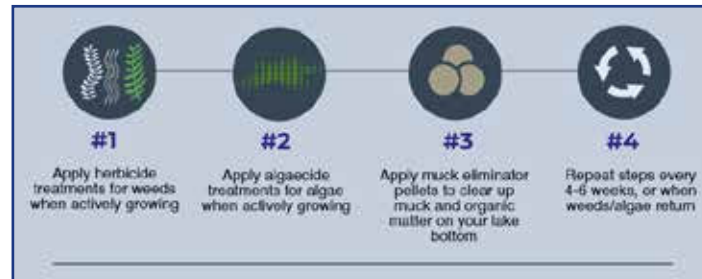

Easily treat your dock area with **Dibrox®** Herbicide and **Mizzen®** Algaecide using the **TORMADA®** product application boat.

Watch our video online at LakeRestoration.com.

HAPPINESS IS A SHORE THING!

We recommend that you treat your dock and swim area multiple times per season to achieve optimal lake shore health. The dock and swim area maintenance steps that we recommend will keep you enjoying a beautiful lake shore without unsightly lake weeds.

Dibrox® Herbicide

Dibrox controls a wide range of floating and submerged weeds, such as duckweed, milfoil, and hydrilla, in ponds and around dock areas.

- Quickly absorbed by plants
- Easily controls dock area weeds

Mizzen® Algaecide

Mizzen will help to keep your dock area scum and algae levels under control so you can enjoy your water access area to the fullest.

Our liquid, chelated copper based algaecide, Mizzen®:

- Controls filamentous and planktonic algae
- Concentrated formula is user-friendly

MuckMaid®

Devour the muck! Get back to enjoying your dock and swim area.

- Bacteria and enzymes devour the build up of organic material
- Improve your recreational area
- Apply every 2-4 weeks

Hydrothol Granular

This granular aquatic herbicide and algaecide controls nearly all lake weed and algae varieties.

- Controls milfoil and hydrilla
- Works best on firm, sandy lake bottoms and murky water
- Improves water access areas

The best granular option for your dock area!

Save \$ when you buy both Hydrothol Granular and MuckMaid®!

The best products for your dock and swimming area.

TORMADA®

Drive your weeds and algae away with the TORMADA® product application boat!

The TORMADA® is an unmanned, lightweight product application boat that enables ponds and dock areas to be treated for weeds and algae. Using a handheld remote, you can control the fan speed and direction of the boat right from the shore. Treat the water right from the shoreline without having to launch a manned boat.

- Have fun driving the TORMADA® while treating for weeds and algae
- Easy and FUN to use
- Simple set up, just connect the battery pack
- Take the chore out of having to treat for weeds and algae

TORMADA Remote Controlled Product Application Boat		\$497.00
TORMADA T2 Series	Remote Electric On/Off Valve	\$597.00
Additional Battery	7.2 volt High Power NIMH Battery	\$75.00

DE-ICER

Keep your lake, marina, pond, or most any body of water open and free from ice formation. Our de-icer will keep ice from forming and prevent damage to your property.

- Prevention of ice-jacking
- Gives you the option to keep your dock and boat in all year round
- Allows for pond water to remain open for fish and wildlife

1/2 HP De-Icer
starting at
\$555.00

De-icers work by moving water warmed by the earth up to the surface, preventing ice formation around your pond or dock area. Not only will this save your docks, but also the pilings and shoreline landscaping that needs protection against the damaging effects of ice.

These items are manufactured by Lake Restoration, Inc. in Rogers, MN.

FOUNTAINS & AERATORS

Add beauty and elegance to your landscape while improving your lake or pond. Discover the benefits that aeration will provide.

Our Vitaflume® floating fountains are the perfect centerpiece for your pond or lake. Our fountains are simple to assemble and maintain, and have a low operating cost.

- Simple plug-in and go operation, one person installation
- Fountain ships assembled in one box
- Direct from the manufacturer
- Operates in just 20" of water
- Low Operation Cost: Fountain = 14 cents/hour
- Optional spray patterns and lighting

Liquid 2,4-D Amine

This liquid 2,4-D Amine herbicide will kill submerged lake weeds.

- Same active ingredient as Aqua Pellets
- 1 gallon of liquid = 22 pounds of pellets
- Controls milfoil, coontail, and water lilly

1 gallon	covers up to 44,000 sq ft = 1 acre	\$62.00
----------	------------------------------------	---------

Aquathol K

This liquid herbicide controls a wide variety of submerged weed types.

- Used in cooler water temperatures to control Curlyleaf pondweed
- Effective in silty areas

1 gallon	treats appx 4,000 sq ft = 1/10 acre	\$164.00
2.5 gallon	treats appx 10,000 sq ft = 1/4 acre	\$369.00*

Aquathol Super K

Aquathol Super K is a highly concentrated granular herbicide that controls a wide variety of submerged weed types.

- Excellent for milfoil or hydrilla control
- Popular for curly-leaf pondweed control

10 Pounds	treats 6,000 - 12,000 sq ft	\$369.00
20 Pounds	treats 10,000 - 24,000 sq ft	\$640.00*
40 Pounds	treats 22,000 - 48,000 sq ft	\$1181.00*

*Additional HazMat Charge (Add \$30 per package)

Sonar AS, Sonar RTU, and Sonar Q

Sonar AS, Sonar RTU and Sonar Q are ideal for water bodies with minimal flow where you are treating a whole pond.

- Active ingredient 41.7% Fluridone (same as Lake Restoration's [Spritflo®](#) Herbicide)
- Controls pondweed, duckweed, hydrilla, and other undesirable aquatic weeds
- Stays suspended in the water for longer control

8 ounces	treats up to 44,000 sq ft = 1 acre	\$269.00
1 pint	treats up to 2 acres	\$525.00
1 quart	treats up to 4 acres	\$870.00
1 gallon	treats up to 16 acres	\$2299.00
RTU 1 quart	Ready to use; covers 5,445 sq ft = 1/8 acre	\$120.00
8 pounds	use 5 pounds for every 10,000 sq ft	\$399.00
40 pounds	treats up to 2 acres	\$1597.00

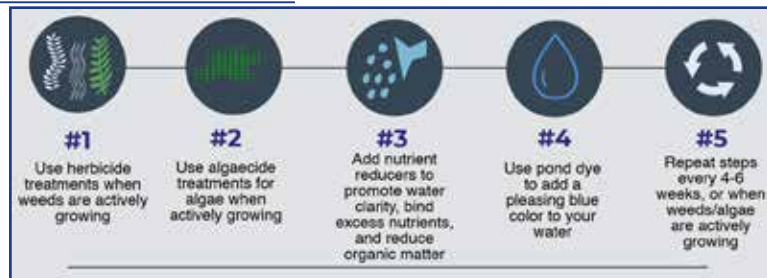

Compare to Lake Restoration's [Spritflo®](#) Herbicide for less. See page 5 for more details.

MAINTENANCE

For optimal health, we recommend that you treat your pond or dock/swim area multiple times per season. Keep your water looking great all season long!

POND MAINTENANCE

View our pond products on pages 2-3.

DOCK & SWIM MAINTENANCE
